(c) If the individualized education program is not developed by agreement, the written statement of the program required under 20 U.S.C. Section 1414(d) must include the basis of the disagreement. Each member of the committee who disagrees with the individualized education program developed by the committee is entitled to include a statement of disagreement in the written statement of the program.

Sec. 29.007. Shared Services Arrangements. [Repealed]

HISTORY: Enacted by Acts 1995, 74th Leg., ch. 260 (S.B. 1), § 1, effective May 30, 1995; Repealed by Acts 2019, 86th Leg., ch. 439 (S.B. 1376), § 4.01(a)(3), effective June 4, 2019.

Sec. 29.008. Contracts for Services; Residential Placement.

(a) A school district, shared services arrangement unit, or regional education service center may contract with a public or private facility, institution, or agency inside or outside of this state for the provision of services to students with disabilities. Each contract for residential placement must be approved by the commissioner. The commissioner may approve a residential placement contract only after at least a programmatic evaluation of personnel qualifications, adequacy of physical plant and equipment, and curriculum content. The commissioner may approve either the whole or a part of a facility or program.

(b) Except as provided by Subsection (c), costs of an approved contract for residential placement may be paid from a combination of federal, state, and local funds. The local share of the total contract cost for each student is that portion of the local tax effort that exceeds the district's local fund assignment under Section 48.256, divided by the average daily attendance in the district. If the contract involves a private facility, the state share of the total contract cost is that amount remaining after subtracting the local share. If the contract involves a public facility, the state share is that amount remaining after subtracting the local share from the portion of the contract that involves the costs of instructional and related services. For purposes of this subsection, "local tax effort" means the total amount of money generated by taxes imposed for debt service and maintenance and operation less any amounts paid into a tax increment fund under Chapter 311, Tax Code.

(c) When a student, including one for whom the state is managing conservator, is placed primarily for care or treatment reasons in a private residential facility that operates its own private education program, none of the costs may be paid from public education funds. If a residential placement primarily for care or treatment reasons involves a private residential facility in which the education program is provided by the school district, the portion of the costs that includes appropriate education services, as determined by the school district's admission, review, and dismissal committee, shall be paid from state and federal education funds.

(d) A district that contracts for the provision of education services rather than providing the services itself shall oversee the implementation of the student's individualized education program and shall annually reevaluate the appropriateness of the arrangement. An approved facility, institution, or agency with whom the district contracts shall periodically report to the district on the services the student has received or will receive in accordance with the contract as well as diagnostic or other evaluative information that the district requires in order to fulfill its obligations under this subchapter.

HISTORY: Enacted by Acts 1995, 74th Leg., ch. 260 (S.B. 1), § 1, effective May 30, 1995.

Sec. 29.010. Compliance.

(a) The agency shall adopt and implement a comprehensive system for monitoring school district compliance with federal and state laws relating to special education. The monitoring system must provide for ongoing analysis of district special education data and of complaints filed with the agency concerning special education services and for inspections of school districts at district facilities. The agency shall use the information obtained through analysis of district data and from the complaints management system to determine the appropriate schedule for and extent of the inspection.

(b) To complete the inspection, the agency must obtain information from parents and teachers of students in special education programs in the district.

(c) The agency shall develop and implement a system of sanctions for school districts whose most recent monitoring visit shows a failure to comply with major requirements of the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.), federal regulations, state statutes, or agency requirements necessary to carry out federal law or regulations or state law relating to special education.

(d) For districts that remain in noncompliance for more than one year, the first stage of sanctions shall begin with annual or more frequent monitoring visits. Subsequent sanctions may range in severity up to the withholding of funds. If funds are withheld, the agency may use the funds to provide, through alternative arrangements, services to students and staff members in the district from which the funds are withheld.

(e) The agency's complaint management division shall develop a system for expedited investigation and resolution of complaints concerning a district's failure to provide special education or related services to a student eligible to participate in the district's special education program.

(f) This section does not create an obligation for or impose a requirement on a school district or open-enrollment charter school that is not also created or imposed under another state law or a federal law.

(b) The commissioner shall require each school district or shared services arrangement to designate at least one

employee to serve as the district's or shared services arrangement's designee on transition and employment services for students enrolled in special education programs under this subchapter. The commissioner shall develop minimum training guidelines for a district's or shared services arrangement's designee. An individual designated under this subsection must provide information and resources about effective transition planning and services, including each issue described by Subsection (a), and interagency coordination to ensure that local school staff communicate and collaborate with:

Sec. 37.108. Multihazard Emergency Operations Plan; Safety and Security Audit.

(a) Each school district or public junior college district shall adopt and implement a multihazard emergency

operations plan for use in the district's facilities. The plan must address prevention, mitigation, preparedness, response, and recovery as defined by the Texas School Safety Center in conjunction with the governor's office of homeland security and the commissioner of education or commissioner of higher education, as applicable. The plan must provide for:

- (1) training in responding to an emergency for district employees, including substitute teachers;
- (2) measures to ensure district employees, including substitute teachers, have classroom access to a telephone, including a cellular telephone, or another electronic communication device allowing for immediate contact with district emergency services or emergency services agencies, law enforcement agencies, health departments, and fire departments;
- (3) measures to ensure district communications technology and infrastructure are adequate to allow for communication during an emergency;
- (4) if the plan applies to a school district, mandatory school drills and exercises, including drills required under Section 37.114, to prepare district students and employees for responding to an emergency;
- (5) measures to ensure coordination with the Department of State Health Services and local emergency management agencies, law enforcement, health departments, and fire departments in the event of an emergency; and
- (6) the implementation of a safety and security audit as required by Subsection (b).

(b) At least once every three years, each school district or public junior college district shall conduct a safety and security audit of the district's facilities. To the extent possible, a district shall follow safety and security audit procedures developed by the Texas School Safety Center or a person included in the registry established by the Texas School Safety Center under Section 37.2091.

(b-1) In a school district's safety and security audit required under Subsection (b), the district must certify that the district used the funds provided to the district through the school safety allotment under Section 42.168 only for the purposes provided by that section.

(c) A school district or public junior college district shall report the results of the safety and security audit conducted under Subsection (b) to the district's board of trustees and, in the manner required by the Texas School Safety Center, to the Texas School Safety Center. The report provided to the Texas School Safety Center under this subsection must be signed by:

- (1) for a school district, the district's board of trustees and superintendent; or
- (2) for a public junior college district, the president of the junior college district.

(c-1) Except as provided by Subsection (c-2), any document or information collected, developed, or produced during a safety and security audit conducted under Subsection (b) is not subject to disclosure under Chapter 552, Government Code.

(c-2) A document relating to a school district's or public junior college district's multihazard emergency operations plan is subject to disclosure if the document enables a person to:

(1) verify that the district has established a plan and determine the agencies involved in the development of the plan and the agencies coordinating with the district to respond to an emergency, including the Department of State Health Services, local emergency services agencies, law enforcement agencies, health departments, and fire departments;

(2) verify that the district's plan was reviewed within the last 12 months and determine the specific review dates;

(3) verify that the plan addresses the four phases of emergency management under Subsection (a);

(4) verify that district employees have been trained to respond to an emergency and determine the types of training, the number of employees trained, and the person conducting the training;

(5) verify that each campus in the district has conducted mandatory emergency drills and exercises in accordance with the plan and determine the frequency of the drills;

(6) if the district is a school district, verify that the district has established a plan for responding to a train derailment if required under Subsection (d);

(7) verify that the district has completed a safety and security audit under Subsection (b) and determine the date the audit was conducted, the person conducting the audit, and the date the district presented the results of the audit to the district's board of trustees;

(8) verify that the district has addressed any recommendations by the district's board of trustees for improvement of the plan and determine the district's progress within the last 12 months; and

(9) if the district is a school district, verify that the district has established a visitor policy and identify the provisions governing access to a district building or other district property.

(d) A school district shall include in its multihazard emergency operations plan a policy for responding to a train derailment near a district school. A school district is only required to adopt the policy described by this subsection if a district school is located within 1,000 yards of a railroad track, as measured from any point on the school's real property boundary line. The school district may use any available community resources in developing the policy described by this subsection.

(e) A school district shall include in its multihazard emergency operations plan a policy for school district property selected for use as a polling place under Section 43.031, Election Code. In developing the policy under this subsection, the board of trustees may consult with the local law enforcement agency with jurisdiction over the school district property selected as a polling place regarding reasonable security accommodations that may be made to the property. This subsection may not be interpreted to require the board of trustees to obtain or contract for the presence of law enforcement or security personnel for the purpose of securing a polling place located on school district property. Failure to comply with this subsection does not affect the requirement of the board of trustees to make a school facility available for use as a polling place under Section 43.031, Election Code.

(f) A school district shall include in its multihazard emergency operations plan:

(1) a chain of command that designates the individual responsible for making final decisions during a disaster or emergency situation and identifies other individuals responsible for making those decisions if the designated person is unavailable;

(3) provisions for ensuring the safety of students in portable buildings;

(4) provisions for ensuring that students and district personnel with disabilities are provided equal access to safety during a disaster or emergency situation;

(5) provisions for providing immediate notification to parents, guardians, and other persons standing in parental relation in circumstances involving a significant threat to the health or safety of students, including identification of the individual with responsibility for overseeing the notification;

(6) provisions for supporting the psychological safety of students, district personnel, and the community during the response and recovery phase following a disaster or emergency situation that:

(A) are aligned with best practice-based programs and research-based practices recommended under Section 161.325, Health and Safety Code;

(B) include strategies for ensuring any required professional development training for suicide prevention and grief-informed and trauma-informed care is provided to appropriate school personnel;

(C) include training on integrating psychological safety and suicide prevention strategies into the district's plan, such as psychological first aid for schools training, from an approved list of recommended training established by the commissioner and Texas School Safety Center for:

(i) members of the district's school safety and security committee under Section 37.109;

(ii) district school counselors and mental health professionals; and

(iii) educators and other district personnel as determined by the district;

(8) the name of each individual on the district's school safety and security committee established under Section 37.109 and the date of each committee meeting during the preceding year.

Sec. 37.115. Threat Assessment and Safe and Supportive School Program and Team.

(a) In this section:

(1) "Harmful, threatening, or violent behavior" includes behaviors, such as verbal threats, threats of self harm, bullying, cyberbullying, fighting, the use or possession of a weapon, sexual assault, sexual harassment, dating violence, stalking, or assault, by a student that could result in:

(A) specific interventions, including mental health or behavioral supports;

(B) in-school suspension;

(C) out-of-school suspension; or

(D) the student's expulsion or removal to a disciplinary alternative education program or a juvenile justice alternative education program.

(2) "Team" means a threat assessment and safe and supportive school team established by the board of trustees of a school district under this section.

(b) The agency, in coordination with the Texas School Safety Center, shall adopt rules to establish a safe and supportive school program. The rules shall incorporate research-based best practices for school safety, including providing for:

(1) physical and psychological safety;

(2) a multiphase and multihazard approach to prevention, mitigation, preparedness, response, and recovery in a crisis situation;

(3) a systemic and coordinated multitiered support system that addresses school climate, the social and emotional domain, and behavioral and mental health; and

(4) multidisciplinary and multiagency collaboration to assess risks and threats in schools and provide appropriate interventions, including rules for the establishment and operation of teams.

(c) The board of trustees of each school district shall establish a threat assessment and safe and supportive school team to serve at each campus of the district and shall adopt policies and procedures for the teams. The team is responsible for developing and implementing the safe and supportive school program under Subsection (b) at the district campus served by the team. The policies and procedures adopted under this section must:

(1) be consistent with the model policies and procedures developed by the Texas School Safety Center;

(2) require each team to complete training provided by the Texas School Safety Center or a regional education service center regarding evidence-based threat assessment programs; and

(3) require each team established under this section to report the information required under Subsection (k) regarding the team's activities to the agency.

(d) The superintendent of the district shall ensure that the members appointed to each team have expertise in counseling, behavior management, mental health and substance use, classroom instruction, special education, school administration, school safety and security, emergency management, and law enforcement. A team may serve more than one campus of a school district, provided that each district campus is assigned a team.

(e) The superintendent of a school district may establish a committee, or assign to an existing committee established by the district, the duty to oversee the operations of teams established for the district. A committee with oversight responsibility under this subsection must include members with expertise in human resources, education, special education, counseling, behavior management, school administration, mental health and substance use, school safety and security, emergency management, and law enforcement.

(f) Each team shall:

(1) conduct a threat assessment that includes:

(A) assessing and reporting individuals who make threats of violence or exhibit harmful, threatening, or violent behavior in accordance with the policies and procedures adopted under Subsection (c); and

(i) referring a student for mental health assessment; and

(ii) implementing an escalation procedure, if appropriate based on the team's assessment, in accordance with district policy;

(2) provide guidance to students and school employees on recognizing harmful, threatening, or violent behavior that may pose a threat to the community, school, or individual; and

(3) support the district in implementing the district's multihazard emergency operations plan.

(g) A team may not provide a mental health care service to a student who is under 18 years of age unless the team obtains written consent from the parent or person standing in parental relation to the student before providing the mental health care service. The consent required by this subsection must be submitted on a form developed by the school district that complies with all applicable state and federal law. The student's parent or person standing in parental relation to the student may give consent for a student to receive ongoing services or may limit consent to one or more services provided on a single occasion.

(h) On a determination that a student or other individual poses a serious risk of violence to self or others, a team shall immediately report the team's determination to the superintendent. If the individual is a student, the superintendent shall immediately attempt to inform the parent or person standing in parental relation to the student. The requirements of this subsection do not prevent an employee of the school from acting immediately to prevent an imminent threat or respond to an emergency.

(i) A team identifying a student at risk of suicide shall act in accordance with the district's suicide prevention program. If the student at risk of suicide also makes a threat of violence to others, the team shall conduct a

threat assessment in addition to actions taken in accordance with the district's suicide prevention program.

(j) A team identifying a student using or possessing tobacco, drugs, or alcohol shall act in accordance with district policies and procedures related to substance use prevention and intervention.

A person is not required to accept a durable power of attorney under this subchapter if:

(1) the person would not otherwise be required to engage in a transaction with the principal under the same circumstances, including a circumstance in which the agent seeks to:

(A) establish a customer relationship with the person under the power of attorney when the principal is not already a customer of the person or expand an existing customer relationship with the person under the power of attorney; or

(B) acquire a product or service under the power of attorney that the person does not offer;

(A) another law of this state or a federal statute, rule, or regulation;

(B) a request from a law enforcement agency; or

(C) a policy adopted by the person in good faith that is necessary to comply with another law of this state or a federal statute, rule, regulation, regulatory directive, guidance, or executive order applicable to the person;

(3) the person would not engage in a similar transaction with the agent because the person or an affiliate of the person:

(A) has filed a suspicious activity report as described by 31 U.S.C. Section 5318(g) with respect to the principal or agent;

(B) believes in good faith that the principal or agent has a prior criminal history involving financial crimes; or

(6) regardless of whether an agent's certification, opinion of counsel, or translation has been requested or received by the person under this subchapter, the person believes in good faith that:

(A) the power of attorney is not valid;

(B) the agent does not have the authority to act as attempted; or

(C) the performance of the requested act would violate the terms of:

(i) a business entity's governing documents; or

(9) the person makes, has made, or has actual knowledge that another person has made a report to a law enforcement agency or other federal or state agency, including the Department of Family and Protective

Services, stating a good faith belief that the principal may be subject to physical or financial abuse, neglect, exploitation, or abandonment by the agent or a person acting with or on behalf of the agent;

(10) the person receives conflicting instructions or communications with regard to a matter from co-agents acting under the same power of attorney or from agents acting under different powers of attorney signed by the same principal or another adult acting for the principal as authorized by Section 751.0021, provided that the person may refuse to accept the power of attorney only with respect to that matter; or

(11) the person is not required to accept the durable power of attorney by the law of the jurisdiction that applies in determining the power of attorney's meaning and effect, or the powers conferred under the durable power of attorney that the agent is attempting to exercise are not included within the scope of activities to which the law of that jurisdiction applies.

(b) If the reason a person is refusing to accept a durable power of attorney is a reason described by Section 751.206(2) or (3):

(a) A person who in good faith accepts a durable power of attorney without actual knowledge that the signature of the principal or of another adult directed by the principal

to sign the principal's name as authorized by Section 751.0021 is not genuine may rely on the presumption under Section 751.0022 that the signature is genuine and that the power of attorney was properly executed.

(b) A person who in good faith accepts a durable power of attorney without actual knowledge that the power of attorney is void, invalid, or terminated, that the purported agent's authority is void, invalid, or terminated, or that the agent is exceeding or improperly exercising the agent's authority may rely on the power of attorney as if:

The judge of a county court may hear guardianship proceedings while sitting for the judge of any other county court.

(c) In a county in which there is a statutory probate court, the statutory probate court has original jurisdiction of guardianship proceedings.

(d) From the filing of the application for the appointment of a guardian of the estate or person, or both, until the guardianship is settled and closed under this chapter, the administration of the estate of a minor or other incapacitated person is one proceeding for purposes of jurisdiction and is a proceeding in rem.

HISTORY: Enacted by Acts 2013, 83rd Leg., ch. 161 (S.B. 1093), § 6.015(a), effective January 1, 2014; am. Acts 2013, 83rd Leg., ch. 982 (H.B. 2080), § 2(a), effective January 1, 2014 ((d) renumbered from Tex. Probate Code Sec. 604).

Sec. 1022.003. Jurisdiction of Contested Guardianship Proceeding in County with No Statutory Probate Court or County Court at Law.

(a) In a county in which there is no statutory probate court or county court at law exercising original probate jurisdiction, when a matter in a guardianship proceeding is contested, the judge of the county court may, on the judge's own motion, or shall, on the motion of any party to the proceeding, according to the motion:

(1) request the assignment of a statutory probate court judge to hear the contested matter, as provided by Section 25.0022, Government Code; or

(2) transfer the contested matter to the district court, which may then hear the contested matter as if originally filed in the district court.

(b) If a party to a guardianship proceeding files a motion for the assignment of a statutory probate court judge to hear a contested matter in the proceeding before the judge of the county court transfers the contested matter to a district court under this section, the county judge shall grant the motion for the assignment of a statutory probate court judge and may not transfer the matter to the district court unless the party withdraws the motion.

(c) If a judge of a county court requests the assignment of a statutory probate court judge to hear a contested matter in a guardianship proceeding on the judge's own motion or on the motion of a party to the proceeding as provided by this section, the judge may request that the statutory probate court judge be assigned to the entire proceeding on the judge's own motion or on the motion of a party.

(d) A party to a guardianship proceeding may file a motion for the assignment of a statutory probate court judge under this section before a matter in the proceeding becomes contested, and the motion is given effect as a motion for assignment of a statutory probate court judge under Subsection (a) if the matter later becomes contested.

(e) Notwithstanding any other law, a transfer of a contested matter in a guardianship proceeding to a district court under any authority other than the authority provided by this section:

(1) is disregarded for purposes of this section; and

(2) does not defeat the right of a party to the proceeding to have the matter assigned to a statutory probate court judge in accordance with this section.

(f) A statutory probate court judge assigned to a contested matter in a guardianship proceeding or to the entire proceeding under this section has the jurisdiction and authority granted to a statutory probate court by this code. A statutory probate court judge assigned to hear only the contested matter in a guardianship proceeding shall, on resolution of the matter, including any appeal of the matter, return the matter to the county court for further proceedings not inconsistent with the orders of the statutory probate court or court of appeals, as applicable. A statutory probate court judge assigned to the entire guardianship proceeding as provided by Subsection (c) shall, on resolution of the contested matter in the proceeding, including any appeal of the matter, return the entire proceeding to the county court for further proceedings not

inconsistent with the orders of the statutory probate court or court of appeals, as applicable.

(g) A district court to which a contested matter in a guardianship proceeding is transferred under this section has the jurisdiction and authority granted to a statutory probate court by this code. On resolution of a contested matter transferred to the district court under this section, including any appeal of the matter, the district court shall return the matter to the county court for further proceedings not inconsistent with the orders of the district court or court of appeals, as applicable.

(h) If only the contested matter in a guardianship proceeding is assigned to a statutory probate court judge under this section, or if the contested matter in a guardianship proceeding is transferred to a district court under this section, the county court shall continue to exercise jurisdiction over the management of the guardianship, other than a contested matter, until final disposition of the contested matter is made in accordance with this section. Any matter related to a guardianship proceeding in which a contested matter is transferred to a district court may be brought in the district court. The district court in which a matter related to the proceeding is filed may, on the court's own motion or on the motion of any party, find that the matter is not a contested matter and transfer the matter to the county court with jurisdiction of the management of the guardianship.

(i) If a contested matter in a guardianship proceeding is transferred to a district court under this section, the district court has jurisdiction of any contested matter in the proceeding that is subsequently filed, and the county court shall transfer those contested matters to the district court. If a statutory probate court judge is assigned under this section to hear a contested matter in a guardianship proceeding, the statutory probate court judge shall be assigned to hear any contested matter in the proceeding that is subsequently filed.

(j) The clerk of a district court to which a contested matter in a guardianship proceeding is transferred under this section may perform in relation to the transferred matter any function a county clerk may perform with respect to that type of matter.

In addition, the judge of the county court, on the judge's own motion or on the motion of a party to the proceeding, may transfer the entire proceeding to the county court at law.

(b) A county court at law to which a proceeding is transferred under this section may hear the proceeding as if originally filed in that court. If only a contested matter in the proceeding is transferred, on the resolution of the

matter, the matter shall be returned to the county court for further proceedings not inconsistent with the orders of the county court at law.

HISTORY: Enacted by Acts 2013, 83rd Leg., ch. 161 (S.B. 1093), § 6.015(a), effective January 1, 2014.

Sec. 1022.005. Exclusive Jurisdiction of Guardianship Proceeding in County with Statutory Probate Court.

(a) In a county in which there is a statutory probate court, the statutory probate court has exclusive jurisdiction of all guardianship proceedings, regardless of whether contested or uncontested.

(b) A cause of action related to a guardianship proceeding of which the statutory probate court has exclusive jurisdiction as provided by Subsection (a) must be brought in the statutory probate court unless the jurisdiction of the statutory probate court is concurrent with the jurisdiction of a district court as provided by Section 1022.006 or with the jurisdiction of any other court.

HISTORY: Enacted by Acts 2013, 83rd Leg., ch. 161 (S.B. 1093), § 6.015(a), effective January 1, 2014.

(2) consolidate the transferred cause of action with the guardianship proceeding to which it relates and any other proceedings in the statutory probate court that are related to the guardianship proceeding.

(b) Notwithstanding any other provision of this title, the proper venue for an action by or against a guardian, ward, or proposed ward for personal injury, death, or property damages is determined under Section 15.007, Civil Practice and Remedies Code.

HISTORY: Enacted by Acts 2013, 83rd Leg., ch. 161 (S.B. 1093), § 6.015(a), effective January 1, 2014.

Subchapter B

Scope of Agreement and Agreement Requirements

Sec. 1357.051. Scope of Supported Decision-Making Agreement.

An adult with a disability may voluntarily, without undue influence or coercion, enter into a supported decision-making agreement with a supporter under which the

adult with a disability authorizes the supporter to do any or all of the following:

(1) provide supported decision-making, including assistance in understanding the options, responsibilities, and consequences of the adult’s life decisions, without making those decisions on behalf of the adult with a disability;

(2) subject to Section 1357.054, assist the adult in accessing, collecting, and obtaining information that is relevant to a given life decision, including medical, psychological, financial, educational, or treatment records, from any person;

(3) assist the adult with a disability in understanding the information described by Subdivision (2); and

(4) assist the adult in communicating the adult’s decisions to appropriate persons.

HISTORY: Enacted by Acts 2015, 84th Leg., ch. 214 (H.B. 39), § 23, effective September 1, 2015; Enacted by Acts 2015, 84th Leg., ch. 1224 (S.B. 1881), § 1, effective June 19, 2015.

Sec. 1357.052. Authority of Supporter; Nature of Relationship.

(a) A supporter may exercise the authority granted to the supporter in the supported decision-making agreement.

(b) The supporter owes to the adult with a disability fiduciary duties as listed in the form provided by Section 1357.056(a), regardless of whether that form is used for the supported decision-making agreement.

(c) The relationship between an adult with a disability and the supporter with whom the adult enters into a supported decision-making agreement:

(1) is one of trust and confidence; and

(2) does not undermine the decision-making authority of the adult.

HISTORY: Enacted by Acts 2015, 84th Leg., ch. 214 (H.B. 39), § 23, effective September 1, 2015; Enacted by Acts 2015, 84th Leg., ch. 1224 (S.B. 1881), § 1, effective June 19, 2015; am. Acts 2017, 85th Leg., ch. 514 (S.B. 39), § 10, effective September 1, 2017.

Sec. 1357.0525. Designation of Alternate Supporter in Certain Circumstances.

In order to prevent a conflict of interest, if a determination is made by an adult with a disability that the supporter with whom the adult entered into a supported decision-making agreement is the most appropriate person to provide to the adult supports and services for which the supporter will be compensated, the adult may amend the supported decision-making agreement to designate an alternate person to act as the adult’s supporter for the limited purpose of participating in person-centered planning as it relates to the provision of those supports and services.

HISTORY: Enacted by Acts 2017, 85th Leg., ch. 514 (S.B. 39), § 11, effective September 1, 2017.

(b) The supported decision-making agreement is terminated if:

- (1) the Department of Family and Protective Services finds that the adult with a disability has been abused, neglected, or exploited by the supporter;
- (2) the supporter is found criminally liable for conduct described by Subdivision (1); or
- (3) a temporary or permanent guardian of the person or estate appointed for the adult with a disability qualifies.

HISTORY: Enacted by Acts 2015, 84th Leg., ch. 214 (H.B. 39), § 23, effective September 1, 2015; Enacted by Acts 2015, 84th Leg., ch. 1224 (S.B. 1881), § 1, effective June 19, 2015; am. Acts 2017, 85th Leg., ch. 514 (S.B. 39), § 12, effective September 1, 2017.

(b) If a supporter assists an adult with a disability in accessing, collecting, or obtaining personal information, including protected health information under the Health Insurance Portability and Accountability Act of 1996 (Pub. L. No. 104-191) or educational records under the Family Educational Rights and Privacy Act of 1974 (20 U.S.C. Section 1232g), the supporter shall ensure the information is kept privileged and confidential, as applicable, and is not subject to unauthorized access, use, or disclosure.

(c) The existence of a supported decision-making agreement does not preclude an adult with a disability from seeking personal information without the assistance of a supporter.

HISTORY: Enacted by Acts 2015, 84th Leg., ch. 214 (H.B. 39), § 23, effective September 1, 2015; Enacted by Acts 2015, 84th Leg., ch. 1224 (S.B. 1881), § 1, effective June 19, 2015.

Subchapter C

Child Unfit to Proceed As a Result of Mental Illness or Intellectual Disability

Sec. 55.31. Unfitness to Proceed Determination; Examination.

(a) A child alleged by petition or found to have engaged in delinquent conduct or conduct indicating a need for

supervision who as a result of mental illness or an intellectual disability lacks capacity to understand the proceedings in juvenile court or to assist in the child's own defense is unfit to proceed and shall not be subjected to discretionary transfer to criminal court, adjudication, disposition, or modification of disposition as long as such incapacity endures.

(b) On a motion by a party, the juvenile court shall determine whether probable cause exists to believe that a child who is alleged by petition or who is found to have engaged in delinquent conduct or conduct indicating a need for supervision is unfit to proceed as a result of mental illness or an intellectual disability. In making its determination, the court may:

(1) consider the motion, supporting documents, professional statements of counsel, and witness testimony; and

(2) make its own observation of the child.

(c) If the court determines that probable cause exists to believe that the child is unfit to proceed, the court shall temporarily stay the juvenile court proceedings and immediately order the child to be examined under Section 51.20. The information obtained from the examination must include expert opinion as to whether the child is unfit to proceed as a result of mental illness or an intellectual disability.

(d) After considering all relevant information, including information obtained from an examination under Section 51.20, the court shall:

(1) if the court determines that evidence exists to support a finding that the child is unfit to proceed, proceed under Section 55.32; or

(2) if the court determines that evidence does not exist to support a finding that the child is unfit to proceed, dissolve the stay and continue the juvenile court proceedings.

HISTORY: Enacted by Acts 1973, 63rd Leg., ch. 544 (S.B. 111), § 1, effective September 1, 1973; am. Acts 1995, 74th Leg., ch. 262 (H.B. 327), § 47, effective May 31, 1995; am. Acts 1999, 76th Leg., ch. 1477 (H.B. 3517), § 14, effective September 1, 1999 (renumbered from Sec. 55.04(a), (b)); am. Acts 2015, 84th Leg., ch. 1 (S.B. 219), § 1.006, effective April 2, 2015.

Sec. 55.32. Hearing on Issue of Fitness to Proceed.

(a) If the juvenile court determines that evidence exists to support a finding that a child is unfit to proceed as a result of mental illness or an intellectual disability, the court shall set the case for a hearing on that issue.

(b) The issue of whether the child is unfit to proceed as a result of mental illness or an intellectual disability shall be determined at a hearing separate from any other hearing.

(c) The court shall determine the issue of whether the child is unfit to proceed unless the child or the attorney for the child demands a jury before the 10th day before the date of the hearing.

(d) Unfitness to proceed as a result of mental illness or an intellectual disability must be proved by a preponderance of the evidence.

(e) If the court or jury determines that the child is fit to proceed, the juvenile court shall continue with proceedings under this title as though no question of fitness to proceed had been raised.

(f) If the court or jury determines that the child is unfit to proceed as a result of mental illness or an intellectual disability, the court shall:

(1) stay the juvenile court proceedings for as long as that incapacity endures; and

(2) proceed under Section 55.33.

(g) The fact that the child is unfit to proceed as a result of mental illness or an intellectual disability does not preclude any legal objection to the juvenile court proceedings which is susceptible of fair determination prior to the adjudication hearing and without the personal participation of the child.

HISTORY: Enacted by Acts 1973, 63rd Leg., ch. 544 (S.B. 111), § 1, effective September 1, 1973; am. Acts 1995, 74th Leg., ch. 262 (H.B. 327), § 47, effective May 31, 1995; am. Acts 1999, 76th Leg., ch. 1477 (H.B. 3517), § 14, effective September 1, 1999 (renumbered from Sec. 55.04(c) to (f)); am. Acts 2015, 84th Leg., ch. 1 (S.B. 219), § 1.007, effective April 2, 2015.

Sec. 55.33. Proceedings Following Finding of Unfitness to Proceed.

(a) If the juvenile court or jury determines under Section 55.32 that a child is unfit to proceed with the juvenile court proceedings for delinquent conduct, the court shall:

(1) if the unfitness to proceed is a result of mental illness or an intellectual disability:

(A) provided that the child meets the commitment criteria under Subtitle C or D, Title 7, Health and Safety Code, order the child placed with the Department of State Health Services or the Department of Aging and Disability Services, as appropriate, for a period of not more than 90 days, which order may not specify a shorter period, for placement in a facility designated by the department; or

(B) on application by the child's parent, guardian, or guardian ad litem, order the child placed in a private psychiatric inpatient facility for a period of not more than 90 days, which order may not specify a shorter period, but only if the placement is agreed to in writing by the administrator of the facility; or

(2) if the unfitness to proceed is a result of mental illness and the court determines that the child may be adequately treated in an alternative setting, order the child to receive treatment for mental illness on an outpatient basis for a period of not more than 90 days, which order may not specify a shorter period.

(b) If the court orders a child placed in a private psychiatric inpatient facility under Subsection (a)(1)(B), the state or a political subdivision of the state may be ordered to pay any costs associated with the child's placement, subject to an express appropriation of funds for the purpose.

Sec. 55.36. Report That Child Is Fit to Proceed; Hearing on Objection.

(a) If a report submitted under Section 55.35(b) states that a child is fit to proceed, the juvenile court shall find that the child is fit to proceed unless the child's attorney objects in writing or in open court not later than the second day after the date the attorney receives a copy of the report under Section 55.35(c).

(b) On objection by the child's attorney under Subsection (a), the juvenile court shall promptly hold a hearing to determine whether the child is fit to proceed, except that the hearing may be held after the date that the placement order issued under Section 55.33(a) expires. CHAPTER 56

Appeal

Section
56.01.

Right to Appeal.

Sec. 56.01. Right to Appeal.

(a) Except as provided by Subsection (b-1), an appeal from an order of a juvenile court is to a court of appeals and the case may be carried to the Texas Supreme Court by writ of error or upon certificate, as in civil cases generally.

(b) The requirements governing an appeal are as in civil cases generally. When an appeal is sought by filing a notice of appeal, security for costs of appeal, or an affidavit of inability to pay the costs of appeal, and the filing is made in a timely fashion after the date the disposition order is signed, the appeal must include the juvenile court adjudication and all rulings contributing to that adjudication. An appeal of the adjudication may be sought notwithstanding that the adjudication order was signed more than 30 days before the date the notice of appeal, security for costs of appeal, or affidavit of inability to pay the costs of appeal was filed.

(b-1) A motion for new trial seeking to vacate an adjudication is:

(1) timely if the motion is filed not later than the 30th day after the date on which the disposition order is signed; and

(2) governed by Rule 21, Texas Rules of Appellate Procedure.

(c) An appeal may be taken:

(1) except as provided by Subsection (n), by or on behalf of a child from an order entered under:

(A) Section 54.02 respecting transfer of the child for prosecution as an adult;

(B) Section 54.03 with regard to delinquent conduct or conduct indicating a need for supervision;

(C) Section 54.04 disposing of the case;

(D) Section 54.05 respecting modification of a previous juvenile court disposition; or

(E) Chapter 55 by a juvenile court committing a child to a facility for the mentally ill or intellectually disabled; or

(2) by a person from an order entered under Section 54.11(i)(2) transferring the person to the custody of the Texas Department of Criminal Justice.

(d) A child has the right to:

(1) appeal, as provided by this subchapter;

(2) representation by counsel on appeal; and

(3) appointment of an attorney for the appeal if an attorney cannot be obtained because of indigency.

(e) On entering an order that is appealable under this section, the court shall advise the child and the child's parent, guardian, or guardian ad litem of the child's rights listed under Subsection (d) of this section.

(f) If the child and his parent, guardian, or guardian ad litem express a desire to appeal, the attorney who represented the child before the juvenile court shall file a notice of appeal with the juvenile court and inform the court whether that attorney will handle the appeal. Counsel shall be appointed under the standards provided in Section 51.10 of this code unless the right to appeal is waived in accordance with Section 51.09 of this code.

(g) An appeal does not suspend the order of the juvenile court, nor does it release the child from the custody of that court or of the person, institution, or agency to whose care the child is committed, unless the juvenile court so orders. However, the appellate court may provide for a personal bond.

(g-1) An appeal from an order entered under Section 54.02 respecting transfer of the child for prosecution as an adult does not stay the criminal proceedings pending the disposition of that appeal.

(h) If the order appealed from takes custody of the child from the child's parent, guardian, or custodian or waives jurisdiction under Section 54.02 and transfers the child to criminal court for prosecution, the appeal has precedence over all other cases.

(h-1) The supreme court shall adopt rules accelerating the disposition by the appellate court and the supreme court of an appeal of an order waiving jurisdiction under Section 54.02 and transferring a child to criminal court for prosecution.

(i) The appellate court may affirm, reverse, or modify the judgment or order, including an order of disposition or modified disposition, from which appeal was taken. It may reverse or modify an order of disposition or modified order of disposition while affirming the juvenile court adjudication that the child engaged in delinquent conduct or conduct indicating a need for supervision. It may remand an order that it reverses or modifies for further proceedings by the juvenile court.

(j) Neither the child nor his family shall be identified in an appellate opinion rendered in an appeal or habeas corpus proceedings related to juvenile court proceedings under this title. The appellate opinion shall be styled, "In the matter of _____," identifying the child by his initials only.

(k) The appellate court shall dismiss an appeal on the state’s motion, supported by affidavit showing that the appellant has escaped from custody pending the appeal and, to the affiant’s knowledge, has not voluntarily returned to the state’s custody on or before the 10th day after the date of the escape. The court may not dismiss an appeal, or if the appeal has been dismissed, shall reinstate the appeal, on the filing of an affidavit of an officer or other credible person showing that the appellant voluntarily returned to custody on or before the 10th day after the date of the escape.

(l) The court may order the child, the child’s parent, or other person responsible for support of the child to pay the child’s costs of appeal, including the costs of representation by an attorney, unless the court determines the person to be ordered to pay the costs is indigent.

(m) For purposes of determining indigency of the child under this section, the court shall consider the assets and income of the child, the child’s parent, and any other person responsible for the support of the child.

(n) A child who enters a plea or agrees to a stipulation of evidence in a proceeding held under this title may not appeal an order of the juvenile court entered under Section 54.03, 54.04, or 54.05 if the court makes a disposition in accordance with the agreement between the state and the child regarding the disposition of the case, unless:

- (1) the court gives the child permission to appeal; or
- (2) the appeal is based on a matter raised by written motion filed before the proceeding in which the child entered the plea or agreed to the stipulation of evidence.

(o) This section does not limit a child’s right to obtain a writ of habeas corpus.

Sec. 266.009. Provision of Medical Care in Emergency.

(a) Consent or court authorization for the medical care of a foster child otherwise required by this chapter is not required in an emergency during which it is immediately necessary to provide medical care to the foster child to prevent the imminent probability of death or substantial bodily harm to the child or others, including circumstances in which:

- (1) the child is overtly or continually threatening or attempting to commit suicide or cause serious bodily harm to the child or others; or
- (2) the child is exhibiting the sudden onset of a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, such that

the absence of immediate medical attention could reasonably be expected to result in placing the child's health in serious jeopardy, serious impairment of bodily functions, or serious dysfunction of any bodily organ or part.

(b) The physician providing the medical care or designee shall notify the person authorized to consent to medical care for a foster child about the decision to provide medical care without consent or court authorization in an emergency not later than the second business day after the date of the provision of medical care under this section. This notification must be documented in the foster child's health passport.

(c) This section does not apply to the administration of medication under Subchapter G, Chapter 574, Health and Safety Code, to a foster child who is at least 16 years of age and who is placed in an inpatient mental health facility.

HISTORY: Enacted by Acts 2005, 79th Leg., ch. 268 (S.B. 6), § 1.65(a), effective September 1, 2005.

Sec. 266.010. Consent to Medical Care by Foster Child at Least 16 Years of Age.

(a) A foster child who is at least 16 years of age may consent to the provision of medical care, except as provided by Chapter 33, if the court with continuing jurisdiction determines that the child has the capacity to consent to medical care. If the child provides consent by signing a consent form, the form must be written in language the child can understand.

(b) A court with continuing jurisdiction may make the determination regarding the foster child's capacity to consent to medical care during a hearing under Chapter 263 or may hold a hearing to make the determination on its own motion. The court may issue an order authorizing the child to consent to all or some of the medical care as defined by Section 266.001. In addition, a foster child who is at least 16 years of age, or the foster child's attorney ad litem, may file a petition with the court for a hearing. If the court determines that the foster child lacks the capacity to consent to medical care, the court may consider whether the foster child has acquired the capacity to consent to medical care at subsequent hearings under Section 263.5031.

(c) If the court determines that a foster child lacks the capacity to consent to medical care, the person authorized by the court under Section 266.004 shall continue to provide consent for the medical care of the foster child.

(d) If a foster child who is at least 16 years of age and who has been determined to have the capacity to consent to medical care refuses to consent to medical care and the department or private agency providing substitute care or case management services to the child believes that the medical care is appropriate, the department or the private agency may file a motion with the court requesting an order authorizing the provision of the medical care.

(e) The motion under Subsection (d) must include:

(1) the child's stated reasons for refusing the medical care; and

(2) a statement prepared and signed by the treating physician that the medical care is the proper course of treatment for the foster child.

(f) If a motion is filed under Subsection (d), the court shall appoint an attorney ad litem for the foster child if one has not already been appointed. The foster child's attorney ad litem shall:

(1) discuss the situation with the child;

(2) discuss the suitability of the medical care with the treating physician;

(3) review the child's medical and mental health records; and

(4) advocate to the court on behalf of the child's expressed preferences regarding the medical care.

(g) The court shall issue an order authorizing the provision of the medical care in accordance with a motion under Subsection (d) to the foster child only if the court finds, by clear and convincing evidence, after the hearing that the medical care is in the best interest of the foster child and:

(1) the foster child lacks the capacity to make a decision regarding the medical care;

(2) the failure to provide the medical care will result in an observable and material impairment to the growth, development, or functioning of the foster child; or

(3) the foster child is at risk of suffering substantial bodily harm or of inflicting substantial bodily harm to others.

(h) In making a decision under this section regarding whether a foster child has the capacity to consent to medical care, the court shall consider:

(1) the maturity of the child;

(2) whether the child is sufficiently well informed to make a decision regarding the medical care; and

(3) the child's intellectual functioning.

(i) In determining whether the medical care is in the best interest of the foster child, the court shall consider:

(1) the foster child's expressed preference regarding the medical care, including perceived risks and benefits of the medical care;

(2) likely consequences to the foster child if the child does not receive the medical care;

(3) the foster child's prognosis, if the child does receive the medical care; and

(4) whether there are alternative, less intrusive treatments that are likely to reach the same result as provision of the medical care.

(j) This section does not apply to emergency medical care. An emergency relating to a foster child who is at least 16 years of age, other than a child in an inpatient mental health facility, is governed by Section 266.009.

(k) This section does not apply to the administration of medication under Subchapter G, Chapter 574, Health and Safety Code, to a foster child who is at least 16 years of age and who is placed in an inpatient mental health facility.

(l) Before a foster child reaches the age of 16, the department or the private agency providing substitute care or case management services to the foster child shall advise the foster child of the right to a hearing under this section to determine whether the foster child may consent to medical care. The department or the private agency providing substitute care or case management services shall provide the foster child with training on informed consent and the provision of medical care as part of the Preparation for Adult Living Program.

Sec. 266.011. Monitoring Use of Psychotropic Drug.

The person authorized to consent to medical treatment for a foster child prescribed a psychotropic medication shall ensure that the child has been seen by the prescribing physician, physician assistant, or advanced practice nurse at least once every 90 days to allow the physician, physician assistant, or advanced practice nurse to:

- (1) appropriately monitor the side effects of the medication; and
- (2) determine whether:
 - (A) the medication is helping the child achieve the treatment goals; and

(1) a screening for trauma; and

(2) interviews with individuals who have knowledge of the child's needs.

(b) The department shall develop guidelines regarding the contents of an assessment report.

(c) A single source continuum contractor under Subchapter B-1, Chapter 264, providing therapeutic foster care services to a child shall ensure that the child receives a comprehensive assessment under this section at least once every 90 days.

- (4) jurisdiction in mental health matters, original or appellate, provided by law for constitutional county courts, statutory county courts, or district courts with mental health jurisdiction, including proceedings under:
 - (A) Subtitle C, Title 7, Health and Safety Code;
 - (B) Chapter 462, Health and Safety Code; and

(b) A county court at law has original concurrent jurisdiction with the justice courts in all civil and criminal matters prescribed by law for justice courts. Appeals from justice courts and other courts of inferior jurisdiction in Nueces County must be made directly to a county court at law.

392.002.	Use of Person First Respectful Language Required.

Sec. 392.001. Findings and Intent.

The legislature finds that language used in reference to persons with disabilities shapes and reflects society’s attitudes toward persons with disabilities. Certain terms and phrases are demeaning and create an invisible barrier to inclusion as equal community members. It is the intent of the legislature to establish preferred terms and phrases for new and revised laws by requiring the use of language that places the person before the disability.

Sec. 392.002. Use of Person First Respectful Language Required.

(a) The legislature and the Texas Legislative Council are directed to avoid using the following terms and phrases in any new statute or resolution and to change those terms and phrases used in any existing statute or resolution as sections including those terms and phrases are otherwise amended by law:

- (2) developmentally disabled;
- (3) mentally disabled;
- (4) mentally ill;
- (5) mentally retarded;
- (6) handicapped;
- (7) cripple; and
- (8) crippled.

(b) In enacting or revising statutes or resolutions, the legislature and the Texas Legislative Council are directed to replace, as appropriate, terms and phrases listed by Subsection (a) with the following preferred phrases or appropriate variations of those phrases:

- (1) “persons with disabilities”;
- (2) “persons with developmental disabilities”;
- (3) “persons with mental illness”; and

(b-1) In addition to the terms and phrases listed in Subsection (a), the legislature and the Texas Legislative Council are directed to avoid using in any new statute or resolution “hearing impaired,” “auditory impairment,” and “speech impaired” in reference to a deaf or hard of hearing person, and the legislature and the Texas Legislative Council are directed to replace, when enacting or revising a statute or resolution, those phrases with “deaf” or “hard of hearing,” as appropriate.

(c) A statute or resolution is not invalid solely because it does not employ this section’s preferred phrases.

(a) In addition to submitting a community justice plan to the division under Section 509.007, a department or a regional partnership of departments may submit a commitment reduction plan to the division not later than the 60th day after the date on which the time for gubernatorial action on the state budget has expired under Section 14, Article IV, Texas Constitution.

(b) A commitment reduction plan submitted under this section may contain a request for additional state funding in the manner described by Subsection (e). A commitment reduction plan must contain:

(1) a target number by which the county or counties served by the department or regional partnership of departments will, relative to the number of individuals committed in the preceding state fiscal year from the county or counties to the Texas Department of Criminal Justice for offenses not listed in or described by Article 42A.054, Code of Criminal Procedure, reduce that number in the fiscal year for which the commitment reduction plan is submitted by reducing the number of:

(A) direct sentencing commitments;

(B) community supervision revocations; or

(C) direct sentencing commitments and community supervision revocations;

(2) a calculation, based on the most recent Criminal Justice Uniform Cost Report published by the Legislative Budget Board, of the savings to the state that will result from the county or counties reaching the target number described by Subdivision (1);

(3) an explanation of the programs and services the department or regional partnership of departments intends to provide using any funding received under

Subsection (e)(1), including any programs or services designed to enhance public safety, reduce recidivism, strengthen the investigation and prosecution of criminal offenses, improve programs and services available to victims of crime, and increase the amount of restitution collected from persons supervised by the department or regional partnership of departments;

(4) a pledge by the department or regional partnership of departments to provide accurate data to the division at the time and in the manner required by the division;

(5) a pledge to repay to the state, not later than the 30th day after the last day of the state fiscal year in which the lump-sum award is made, a percentage of the lump sum received under Subsection (e)(1) that is equal to the percentage by which the county or counties fail to reach the target number described by Subdivision (1), if the county or counties do not reach that target number; and

(6) if the commitment reduction plan is submitted by a regional partnership of departments, an agreement and plan for the receipt, division, and administration of any funding received under Subsection (e).

(c) For purposes of Subsection (b)(5), if the target number contained in the commitment reduction plan is described by Subsection (b)(1)(B), the county or counties fail to reach the target number if the sum of any increase in the number of direct sentencing commitments and any reduction in community supervision revocations is less than the target number contained in the commitment reduction plan.

(d) A pledge described by Subsection (b)(4) or (5) must be signed by:

(1) the director of the department submitting the commitment reduction plan; or

(2) if the commitment reduction plan is submitted by a regional partnership of departments, a director of one of the departments in the regional partnership submitting the commitment reduction plan.

(e) After reviewing a commitment reduction plan, if the division is satisfied that the plan is feasible and would achieve desirable outcomes, the division may award to the department or regional partnership of departments:

(1) a one-time lump sum in an amount equal to 35 percent of the savings to the state described by Subsection (b)(2); and

(2) on a biennial basis, and from the 65 percent of the savings to the state that remains after payment of the lump sum described by Subdivision (1), the following incentive payments for the department's or regional partnership's performance in the two years immediately preceding the payment:

(A) 15 percent, for reducing the percentage of persons supervised by the department or regional partnership of departments who commit a new felony while under supervision;

(B) five percent, for increasing the percentage of persons supervised by the department or regional partnership of departments who are not delinquent in making any restitution payments; and

(C) five percent, for increasing the percentage of persons supervised by the department or regional

partnership of departments who are gainfully employed, as determined by the division.

(f) A department or regional partnership of departments may use funds received under Subsection (e) to provide any program or service that a department is authorized to provide under other law, including implementing, administering, and supporting evidence-based community supervision strategies, electronic monitoring, substance abuse and mental health counseling and treatment, specialized community supervision caseloads, intermediate sanctions, victims' services, restitution collection, short-term incarceration in county jails, specialized courts, pretrial services and intervention programs, and work release and day reporting centers.

(g) Any funds received by a department or regional partnership of departments under Subsection (e):

(1) are in addition to any per capita or formula funding received under Section 509.011; and

(2) may not be deducted from any per capita or formula funding received or to be received by:

(A) another department, if the commitment reduction plan is submitted by a department; or

(B) any department, if the commitment reduction plan is submitted by a regional partnership of departments.

(h) The division shall deduct from future state aid paid to a department, or from any incentive payments under Subsection (e)(2) for which a department is otherwise eligible, an amount equal to the amount of any pledge described by Subsection (b)(5) that remains unpaid on the 31st day after the last day of the state fiscal year in which a lump-sum award is made under Subsection (e)(1). If the lump-sum award was made to a regional partnership of departments, the division shall deduct, in accordance with the agreement and plan described by Subsection (b)(6), the amount of the unpaid pledge from the future state aid to each department that is part of the partnership or from any incentive payments under Subsection (e)(2) for which the regional partnership of departments is otherwise eligible.

Sec. 509.011. Payment of State Aid.

(a) If the division determines that a department complies with division standards and if the department has submitted a strategic plan under Section 509.007 and the supporting information required by the division and the division determines the plan and supporting information are acceptable, the division shall prepare and submit to the comptroller vouchers for payment to the department as follows:

(1) for per capita funding, a per diem amount for each felony defendant directly supervised by the department pursuant to lawful authority;

(2) for per capita funding, a per diem amount for a period not to exceed 182 days for each defendant supervised by the department pursuant to lawful authority, other than a felony defendant; and

(3) for formula funding, an annual amount as computed by multiplying a percentage determined by the allocation formula established under Subsection (f) times the total amount provided in the General Appropriations Act for payments under this subdivision.

(a-1) Repealed by Acts 2017, 85th Leg., R.S., Ch. 346 (H.B. 1526), Sec. 3, eff. September 1, 2017.

(b) The division may use discretionary grant funds to further the purposes of this chapter by contracting for services with state agencies or nonprofit organizations. The division may also make discretionary grants to departments, municipalities, or counties for the following purposes:

(1) development and operation of pretrial and presentencing services;

(2) electronic monitoring services, surveillance supervision programs, and controlled substances testing services;

(3) research projects to evaluate the effectiveness of community corrections programs, if the research is conducted in cooperation with the Criminal Justice Policy Council;

(4) contract services for felony defendants;

(5) residential services for misdemeanor defendants who exhibit levels of risk or needs indicating a need for confinement and treatment, as described by Section 509.005(b);

(6) establishment or operation of county correctional centers under Subchapter H, Chapter 351, Local Government Code, or community corrections facilities for which the division has established standards under Section 509.006;

(7) development and operation of treatment alternative to incarceration programs under Section 76.017; and

(8) other purposes determined appropriate by the division and approved by the board.

(b-1) The division may award a grant to a department for the development and operation of a pretrial intervention program for defendants who are:

(1) pregnant at the time of placement into the program; or

(2) the primary caretaker of a child younger than 18 years of age.

(c) Each department, county, or municipality shall deposit all state aid received from the division in a special fund of the county treasury or municipal treasury, as appropriate, to be used solely for the provision of services, programs, and facilities under this chapter or Subchapter H, Chapter 351, Local Government Code.

(d) The division shall provide state aid to each department on a biennial basis, pursuant to the strategic plan for the biennium submitted by the department. A department with prior division approval may transfer funds from one program or function to another program or function.

(e) In establishing per diem payments authorized by Subsections (a)(1) and (a)(2), the division shall consider the amounts appropriated in the General Appropriations Act for basic supervision as sufficient to provide basic supervision in each year of the fiscal biennium.

(f) The division annually shall compute for each department for community corrections program formula funding

a percentage determined by assigning equal weights to the percentage of the state's population residing in the counties served by the department and the department's percentage of all felony defendants in the state under direct community supervision. The division shall use the most recent information available in making computations under this subsection. The board by rule may adopt a policy limiting for all departments the percentage of benefit or loss that may be realized as a result of the operation of the formula.

(g) If the Texas Department of Criminal Justice determines that at the end of a biennium a department maintains in reserve an amount greater than six months' basic supervision operating costs for the department, the Texas Department of Criminal Justice in the succeeding biennium may reduce the amount of per capita and formula funding provided under Subsection (a) so that in the succeeding biennium the department's reserves do not exceed six months' basic supervision operating costs. The Texas Department of Criminal Justice may adopt policies and standards permitting a department to maintain reserves in an amount greater than otherwise permitted by this subsection as necessary to cover emergency costs or implement new programs with the approval of the Texas Department of Criminal Justice. The Texas Department of Criminal Justice may distribute unallocated per capita or formula funds to provide supplemental funds to individual departments to further the purposes of this chapter.

(h) A community supervision and corrections department at any time may transfer to the Texas Department of Criminal Justice any unencumbered state funds held by the department. The Texas Department of Criminal Justice may distribute funds received from a community supervision and corrections department under this subsection to provide supplemental funds to individual departments to further the purposes of this chapter.

Sec. 509.016. Prison Diversion Progressive Sanctions Program.

(a) The division shall provide grants to selected departments for the implementation of a system of progressive sanctions designed to reduce the revocation rate of defendants placed on community supervision. The division shall give priority in providing grants to departments that:

- (1) serve counties in which the revocation rate for defendants on community supervision significantly exceeds the statewide average or historically has significantly exceeded the statewide average; or
- (2) have demonstrated success, through the implementation of a system of progressive sanctions, in reducing the revocation rate of defendants placed on community supervision.

(b) In determining which departments are proper candidates for grants under this section, the division shall give preference to departments that present to the division a plan that will target medium-risk and high-risk defendants and use progressive sanction models that adhere to the components set forth in Section 469.001, Health and Safety Code. As a condition to receiving a grant, a department must offer a plan that contains some if not all of the following components:

(c) The division shall, not later than December 1 of each even-numbered year, provide a report to the board. The report must state the number of departments receiving grants under this section, identify those departments by name, and describe for each department receiving a grant the components of the department's program and the success of the department in reducing revocations. The report must also contain an analysis of the scope, effectiveness, and cost benefit of programs funded by grants provided under this section and a comparison of those programs to similar programs in existence in various departments before March 1, 2005. The division may include in the report any other information the division determines will be beneficial to the board or the legislature. The board shall forward the report to the lieutenant governor and the speaker of the house of representatives not later than December 15 of each even-numbered year.

(b) The chief executive officer of each appropriate health and human services agency or the officer's designee must approve the placement of a child in an institution. The initial placement of the child in the institution is temporary and may not exceed six months unless the appropriate chief executive officer or the officer's designee approves an extension of an additional six months after conducting a review of documented permanency planning efforts to unite the child with a family in a permanent living arrangement. After the initial six-month extension of a child's placement in an institution approved under this subsection, the chief executive officer or the officer's designee shall conduct a review of the child's placement in the institution at least semiannually to determine whether a continuation of that placement is warranted. (c) On receipt of a recommendation made under Subsection (b) for an extension of a child's placement, the executive commissioner, the executive commissioner's designee, or another person with whom the commission contracts shall conduct a review of the child's placement. Based on the results of the review, the executive commissioner or the executive commissioner's designee may approve a six-month extension of the child's placement if the extension is appropriate.

(d) The child may continue residing in the institution after the six-month extension approved under Subsection (c) only if the chief executive officer of the appropriate health and human services agency or the officer's designee makes subsequent recommendations as provided by Subsection (b) for each additional six-month extension and the executive commissioner or the executive commissioner's designee approves each extension as provided by Subsection (c).

(e) The executive commissioner or the executive commissioner's designee shall conduct a semiannual review of data received from health and human services agencies regarding all children who reside in institutions in this state. The executive commissioner, the executive commissioner's designee, or a person with whom the commission contracts shall also review the recommendations of the chief executive officers of each appropriate health and human services agency or the officer's designee if the officer or the officer's designee repeatedly recommends that children continue residing in an institution.

 - (A) informed choice and meaningful outcomes by using person-centered planning, flexible consumer-directed services, individualized budgeting, and self-determination; and
 - (B) community inclusion and engagement;
- (4) promote integrated service coordination of acute care services and long-term services and supports;
- (5) promote efficiency and the best use of funding based on an individual's needs and preferences;
- (6) promote through housing supports and navigation services stability in housing that is the most integrated and least restrictive based on the individual's needs and preferences;
- (7) promote employment assistance and customized, integrated, and competitive employment;
- (8) provide fair hearing and appeals processes in accordance with applicable federal and state law;
- (9) promote sufficient flexibility to achieve the goals listed in this section through the pilot program;
- (10) promote the use of innovative technologies and benefits, including telemedicine, telemonitoring, the testing of remote monitoring, transportation services, and other innovations that support community integration;
- (11) ensure an adequate provider network that includes comprehensive long-term services and supports providers and ensure that pilot program participants have a choice among those providers;

(12) ensure the timely initiation and consistent provision of long-term services and supports in accordance with an individual's person-centered plan;

(13) ensure that individuals with complex behavioral, medical, and physical needs are assessed and receive appropriate services in the most integrated and least restrictive setting based on the individuals' needs and preferences;

(14) increase access to, expand flexibility of, and promote the use of the consumer direction model; and

(15) promote independence, self-determination, the use of the consumer direction model, and decision making by individuals participating in the pilot program by using alternatives to guardianship, including a supported decision-making agreement as defined by Section 1357.002, Estates Code.

(b) An individual is not required to use an innovative technology described by Subsection (a)(10). If an individual chooses to use an innovative technology described by that subdivision, the commission shall ensure that services associated with the technology are delivered in a manner that:

- (1) ensures the individual's privacy, health, and well-being;
 - (2) provides access to housing in the most integrated and least restrictive environment;
 - (3) assesses individual needs and preferences to promote autonomy, self-determination, the use of the consumer direction model, and privacy;
 - (4) increases personal independence;
 - (5) specifies the extent to which the innovative technology will be used, including:
 - (A) the times of day during which the technology will be used;
 - (B) the place in which the technology may be used;
 - (C) the types of telemonitoring or remote monitoring that will be used; and
 - (D) for what purposes the technology will be used;
 - (6) is consistent with and agreed on during the person-centered planning process;
 - (7) ensures that staff overseeing the use of an innovative technology:

 - (B) demonstrate competency regarding the support needs of each individual using the innovative technology;
 - (8) ensures that an individual using an innovative technology is able to request the removal of equipment relating to the technology and, on receipt of a request for the removal, the equipment is immediately removed; and
 - (9) ensures that an individual is not required to use telemedicine at any point during the pilot program and, in the event the individual refuses to use telemedicine, the managed care organization providing health care services to the individual under the pilot program arranges for services that do not include telemedicine.
- (c) The pilot program must be designed to test innovative payment rates and methodologies for the provision of long-term services and supports to achieve the goals of the

pilot program by using payment methodologies that include:

(1) the payment of a bundled amount without downside risk to a comprehensive long-term services and supports provider for some or all services delivered as part of a comprehensive array of long-term services and supports;

(2) enhanced incentive payments to comprehensive long-term services and supports providers based on the completion of predetermined outcomes or quality metrics; and

(3) any other payment models approved by the commission.

(1) the historical costs of long-term services and supports, including Medicaid fee-for-service rates;

(2) reasonable cost estimates for new services under the pilot program; and

(3) whether an alternative payment rate or methodology is sufficient to promote quality outcomes and ensure a provider's continued participation in the pilot program.

(f) An alternative payment rate or methodology described by Subsection (c) may not reduce the minimum payment received by a provider for the delivery of long-term services and supports under the pilot program below the fee-for-service reimbursement rate received by the provider for the delivery of those services before participating in the pilot program.

(g) The pilot program must allow a comprehensive long-term services and supports provider for individuals with an intellectual or developmental disability or similar functional needs that contracts with the commission to provide services under Medicaid before the implementation date of the pilot program to voluntarily participate in the pilot program. A provider's choice not to participate in the pilot program does not affect the provider's status as a significant traditional provider.

(h) Under the pilot program, a participating managed care organization shall provide long-term services and supports under Medicaid to persons with an intellectual or developmental disability and persons with similar functional needs to test its managed care strategy based on capitation.

(i) The commission, in consultation and collaboration with the advisory committee and pilot program workgroup, shall analyze information provided by the managed care organizations participating in the pilot program and any information collected by the commission during the operation of the pilot program for purposes of making a recommendation about a system of programs and services for implementation through future state legislation or rules.

(j) The analysis under Subsection (i) must include an assessment of the effect of the managed care strategies implemented in the pilot program on the goals described by this section.

(k) Before implementing the pilot program, the commission, in consultation and collaboration with the advisory committee and pilot program workgroup, shall develop and implement a process to ensure pilot program participants remain eligible for Medicaid benefits for 12 consecutive months during the pilot program.

[Expires September 1, 2027]

Sec. 161.101. [Expires September 1, 2027] Guardianship Services.

(a) The department shall file an application under Section 1101.001 or 1251.003, Estates Code, to be appointed guardian of the person or estate, or both, of a minor referred to the department under Section 48.209(a)(1) for guardianship services if the department determines:

(1) that the minor, because of a mental or physical condition, will be substantially unable to provide for the minor's own food, clothing, or shelter, to care for the minor's own physical health, or to manage the individual's own financial affairs when the minor becomes an adult; and

(2) that a less restrictive alternative to guardianship is not available for the minor.

(b) The department shall conduct a thorough assessment of the conditions and circumstances of an elderly person or person with a disability referred to the department under Section 48.209(a)(2) for guardianship services to determine whether a guardianship is appropriate for the individual or whether a less restrictive alternative is available for the individual. In determining whether a guardianship is appropriate, the department may consider the resources and funds available to meet the needs of the elderly person or person with a disability. The executive commissioner shall adopt rules for the administration of this subsection.

(c) Subject to Subsection (c-1), if after conducting an assessment of an elderly person or person with a disability under Subsection (b) the department determines that:

(2) a less restrictive alternative to guardianship is available for the elderly person or person with a disability, the department shall pursue the less restrictive

If the department determines that an alternative person or program described by Section 161.102 is available to serve as guardian, the department shall refer the elderly person or person with a disability to that alternative person or program in a manner that would allow the alternative person or program sufficient time to file, not later than the 70th day after the date the department received the referral, an application to be appointed guardian.

(c-2) With the approval of the Department of Family and Protective Services, the department may extend, by not more than 30 days, a period prescribed by Subsection (c-1) if the extension is:

Section

§ 401.464. Notification and Appeals Process

§ 401.464. Notification and Appeals Process

(a) The TXMHMR service system is dedicated to providing mental health and mental retardation services/supports which are viewed as satisfactory by persons receiving those services/supports and their legally authorized representatives. Therefore, local authorities and their contractors shall take steps to assure that these persons:

- (1) have a method to express their concerns or dissatisfaction;
- (2) are assisted to do so in a constructive way; and
- (3) have their concerns or dissatisfaction addressed through a review process.

(b) A request to review decisions described in this section may be made by the person requesting or receiving services/supports, the person's legal representative, or any other individual with the person's consent.

(c) At the time of admission into services and on an annual basis thereafter, the local authority and its contractors shall provide to persons who receive services/supports and their legally authorized representatives written notification in a language and/or method understood by the individual of the local authority or its contractor's policy for addressing concerns or dissatisfaction with services/supports. The notification shall explain:

- (1) an easily understood process for persons and legally authorized representatives to request a review of their concerns or dissatisfaction by the local authority or its contractor, whichever is appropriate;
- (2) how the person may receive assistance in requesting the review;
- (3) the timeframes for the review; and
- (4) the method by which the person is informed of the outcome of that review.

(d) Local authorities and their contractors shall notify persons and legally authorized representatives in writing in a language and/or method understood by the individual of the following decisions and of the process to appeal by requesting a review of those decisions:

- (1) a decision to deny the person services/supports at the conclusion of a local authority's procedure which

determines whether the person meets the criteria for the priority population; and

(2) a decision to terminate services/supports and follow-along from the local authority or its contractor, if appropriate.

(e) The written notification referred to in subsection (d) of this section must:

(1) be given or mailed to the person and the legally authorized representative within ten working days of the date the decision was made;

(2) state the reason for the decision;

(3) explain that the person and legally authorized representative may contact either the local authority or its contractor, whichever is appropriate, within 30 days of receipt of notification if dissatisfied with the decision and request that the decision be reviewed in accordance with subsection (g) of this section; and

(4) include name(s), phone number(s) and address(es) of one or more accessible staff to contact during office hours.

(f) If a person or legally authorized representative believes that the local authority or its contractor has made a decision to involuntarily reduce services by changing the amount, duration, or scope of services/supports provided and is dissatisfied with that decision, then the person may request in writing that the decision be reviewed in accordance with subsection (g) of this section.

(g) The review by the local authority or its contractor shall:

(1) begin within ten working days of receipt of the request for a review and be completed within ten working days of the time it begins unless an extension is granted by the CEO of the local authority or its contractor, whichever is appropriate;

(2) begin immediately upon receipt of the request and be completed within five working days if the decision is related to a crisis service;

(3) be conducted by an individual(s) who was not involved in the initial decision;

(4) include a review of the original decision which led to the person's dissatisfaction;

(5) result in a decision to uphold, reverse, or modify the original decision; and

(6) provide the person an opportunity to express his or her concerns in person or by telephone to the individual reviewing the decision. The review shall also allow the person to:

(A) have a representative talk with the reviewer;

or

(B) submit his or her concerns in writing, on tape, or in some other fashion.

(h) Following a review, either the local authority or its contractor, whichever is appropriate, shall explain to the person and legally authorized representative in writing and also in person or by telephone, if requested, the action it will take or, if no action will be taken, why it will not change the decision or believes such action would not be in the person's best interest. This is the final step in the review process.

(i) The notification and review process described in this section:

(1) is applicable only to services/supports funded by TXMHMR and provided or contracted for by its local authorities;

(2) does not preclude a person or legally authorized representative's right to reviews, appeals, or other actions that accompany other funds administered through a local authority or its contractors, or to other appeals

processes provided for by other state and federal laws, e.g., Texas Health and Safety Code, Title 7, Chapter 593 (Persons with Mental Retardation Act); 42 USC § 1396 (Medicaid statute); and Texas Human Resources Code, Chapter 73 (Chapter 621 of this title (relating to Early Childhood Intervention)), Early Childhood Intervention programs as funded by the Texas Interagency Council for Early Childhood Intervention.

Other orders may be renewed as long as the condition exists. Staff members may offer to read mail to individuals unable to read because of illiteracy, blindness, or other reason, but staff members may not read the mail if the individual declines the offer.

(C) The right to have an opportunity for physical exercise and for going outdoors, with or without supervision, as clinically indicated, at least daily. a physician's order limiting this right must be reviewed and renewed, if necessary, at intervals no longer than every three days and the findings of the review must be documented in the individual's record.

If a restriction is imposed, the treating physician shall document the reasons for the restriction and the duration of the restriction in the individual's record. Unless otherwise specified, the written order must be reviewed

within seven days, and if renewed, it must be renewed in writing at intervals no greater than every seven days. The treatment team should consider strategies to help the individual regain or resume the practice of the right.

(A) A physician or physician's designee shall inform the individual of the clinical reasons for the restriction and its duration as soon as possible. The parent/conservator of a minor or the legal guardian of an individual, if applicable, shall also be informed of the restriction and its duration as appropriate.

(3) All written or prepared requests for discharge will be timed, dated, and signed by the staff member, who shall provide information to the individual that pursuant to law, during the ensuing period of up to 24 hours, the individual will be observed and evaluated to determine the clinical appropriateness of seeking an involuntary commitment to services. The form and format for requesting release and the information to be provided may be prescribed by the department.

(b) All persons voluntarily admitted to inpatient services for treatment of mental illness or chemical dependency have the right to be discharged within four hours of a request for release unless the individual's treating physician (or another physician if the treating physician is not available) determines that there is cause to believe that the individual might meet the criteria for court-ordered mental health services or emergency detention.

(c) All persons voluntarily admitted to inpatient services for treatment of mental illness or chemical dependency have the right not to have an application for court-ordered mental health or chemical dependency services filed while receiving voluntary services unless, in the opinion of the physician responsible for the individual's treatment, the individual meets the criteria for court-ordered services as outlined in the Texas Health and Safety Code, § 573.022, and either:

(1) requests discharge;

(2) is absent without authorization;

(3) is unable to consent to appropriate and necessary psychiatric or chemical dependency treatment; or

(2) the individual's insurance company will refuse to pay all or any portion of the medical expenses previously incurred; or

(3) the person will be reported to an enforcement or regulatory agency (i.e., Department of Protective and Regulatory Services) merely because the person refuses to follow a treatment recommendation. However, this does not preclude reminding the individual of the consequences of requesting release as relate to any agreements the individual entered into as a condition of treatment, i.e., treatment as a condition of parole.

book will be revised by the Office of Consumer Services and Rights Protection as necessary.

(b) The department will publish a Teen's Bill of Rights and a Children's Bill of Rights ("The Little Dinosaur Named Wilbur," with supplementary material) which are adopted by reference as Exhibits B and C of this subchapter, respectively, with copies available from the Texas Department of Mental Health and Mental Retardation, P.O. Box 12668, Austin, Texas 78711-2668. The Teen's Bill of Rights and the Children's Bill of Rights will contain interpretations written in simple and nontechnical language of the rights afforded minors receiving mental health services, an explanation of the circumstances under which those rights may be limited, and organizations individuals may contact in the event of rights violations. The Teen's Bill of Rights and the Children's Bill of Rights will be revised as necessary.

(1) The Teen's Bill of Rights is generally recommended for minors over the age of eight.

(2) The Children's Bill of Rights is generally recommended for minors under the age of eight.

(3) Notwithstanding these guidelines, staff should consider the developmental level of the minor being admitted in determining the appropriate document to be provided. Minors may also request and receive the rights handbook.

(c) The handbook, Teen's Bill of Rights and/or Children's Bill of Rights, published by the department will be used as the formal document for rights notification for individuals admitted to department facilities, their community programs, and psychiatric hospitals operated by community centers. Community centers may distribute the handbook published by the department or may choose to publish their own version. Handbooks published by community centers must contain all rights outlined in the handbook published by the department and must be approved by the Office of Consumer Services and Rights Protection prior to their distribution.

(d) Each handbook distributed must include the toll-free number of the Office of Consumer Services and Rights Protection (CSRP) in central office (1-800-252-8154), the toll free TDD number of CSRP (1-800-538-4870), the toll free number of Advocacy, Inc. (1-800-223-4206, both voice and TDD capabilities), the name, telephone number, and mailing address of the rights protection officer, and the mailing address of the public responsibility committee for the facility or community center which distributes it.

(e) Immediately upon admission into services, each individual and the parent or conservator of a minor and the legal guardian of the person, when applicable, must be given the appropriate rights handbook. The parent, conservator, or legal guardian of a minor shall also receive a copy of the rights handbook in addition to the Teen's Bill of Rights and/or Children's Bill of Rights.

(f) All handbooks must be printed in English and Spanish, and must be made available in any other language used by a significant percentage of the service area's population. Copies of the rights handbook must be displayed prominently at all times in all areas frequented by persons receiving services (e.g., day rooms, recreational rooms, waiting rooms, lobby areas). A sufficient number of copies will be kept on hand in each of these areas in order that a copy may be made readily available to anyone requesting one. The head of each department facility and community center shall appoint an individual responsible for ensuring that these requirements are met.

(g) Nothing in this section shall preclude the use or distribution of additional brochures or materials outlining

rights information provided the information does not conflict with information presented in the rights handbook.

Box 12668, Austin, Texas 78711-2668, which will contain interpretations written in simple and nontechnical language of the various rights afforded individuals receiving mental health services at psychiatric hospitals, an explanation of the circumstances under which those rights may be limited, and organizations individuals may contact in the event of rights violations. The Patient's Bill of Rights will be revised as necessary.

(b) The department will publish a Teen's Bill of Rights and a Children's Bill of Rights ("The Little Dinosaur Named Wilbur," with supplementary material) which are adopted by reference as Exhibits B and C of this subchapter, respectively, with copies available from the Texas Department of Mental Health and Mental Retardation, P.O. Box 12668, Austin, Texas 78711-2668. The Teen's Bill of Rights and the Children's Bill of Rights will contain interpretations written in simple and nontechnical language of the rights afforded minors receiving mental health services at psychiatric hospitals, an explanation of the circumstances under which those rights may be limited, and organizations individuals may contact in the event of rights violations. The Teen's Bill of Rights and the Children's Bill of Rights will be revised as necessary.

(c) The Patient's Bill of Rights, the Teen's Bill of Rights, and the Children's Bill of Rights published by the department will be used as the formal document for rights notification for individuals admitted to psychiatric hospitals which are not operated by community centers. At psychiatric hospitals operated by community centers, individuals admitted for services will receive the rights handbook as outlined in § 404.161 of this title (relating to Rights Handbooks for Persons Receiving Mental Health Services at Facilities, Community Centers, and Psychiatric Hospitals Operated by Community Centers).

(d) The Patient's Bill of Rights, the Teen's Bill of Rights, and the Children's Bill of Rights must be printed in English and Spanish, and must be made available in other languages of primary use by individuals admitted to each psychiatric hospital.

(f) Copies of the Patient's Bill of Rights, Teen's Bill of Rights, and/or Children's Bill of Rights must be displayed prominently at all times in all areas frequented by persons receiving services (e.g., day rooms, recreational rooms, wait-

ing rooms, lobby areas). A sufficient number of copies will be kept on hand in each of these areas in order that a copy may be made readily available to anyone requesting one.

(g) Nothing in this section shall preclude the use or distribution of additional brochures or materials outlining rights information provided the information does not conflict with information presented in the rights handbook.

§ 404.163. Communication of Rights to Individuals Receiving Mental Health Services

(a) In addition to receiving a rights handbook, each newly admitted individual, the parent or conservator of a minor, and the guardian of the person shall be informed orally of all rights in his or her primary language using plain and simple terms within 24 hours of admission into services. Persons admitted for voluntary services shall be given this information prior to admission to services. The notification will also include an explanation of the circumstances under which those rights may be limited, and an explanation of how a complaint may be filed. This notification also must occur at least annually and upon any changes to this information. The method used to communicate the information should be designed for effective communication, tailored to meet each person's ability to comprehend, and responsive to any visual or hearing impairment.

(b) Oral communication of rights shall be documented on a form bearing the date and signatures of the individual and/or the parent, conservator, or guardian, and the staff member who explained the rights. The form should be filed in the individual's chart. Psychiatric hospitals should use the form provided on the Patient's Bill of Rights. Department facilities should use the Receipt of Information Record (MHRS 9-1 Form). Community centers may use the MHRS 9-1 Form or a form of their own design which contains all of the applicable elements, so long as the form is used only for the documentation of communication of rights.

(c) When the individual receiving services is unable or unwilling to sign the document which confirms that rights have been orally communicated, a brief explanation of the reason should be entered onto that document along with the signatures of the person who explained the rights and a third-party witness.

(d) If the individual does not appear to understand the rights explanation, staff will attempt to provide another explanation periodically until understanding is reached or until discharge. The necessity for repeating the rights communication process will be documented, signed, and dated by staff.

(1) All new employees shall receive the instruction on the content of this subchapter during their orientation training and prior to beginning work.

(2) Within 60 days after the effective date of this subchapter, all current employees shall be briefed on its contents by the head of the department facility, community center, or psychiatric hospital or designee.

(3) All supervisory personnel shall have a continuing responsibility to keep employees informed about rules governing rights of persons receiving mental health services and shall ensure that each employee receives training on the subject not less than once each calendar year. At department facilities and community centers, such training shall be reported to the department facility or community center's office for staff development. Psychiatric hospitals shall develop an appropriate means for maintaining training records.

(4) A record shall be kept by the psychiatric hospital or the department facility or community center's office for staff development on each employee receiving orientation, annual training, or additional instruction in compliance with this section, including the date training was provided and the name of the individual conducting the training.

§ 404.166. Restriction of Rights as Part of Non-Emergency Behavioral Interventions

(a) Patients rights are guaranteed under the provisions of this subchapter. Although under special circumstances set out in this subchapter, certain rights can be limited without informed consent, it is usually mandatory and always preferable to obtain informed consent when limitation of rights is contemplated.

(b) Except as otherwise noted in this subchapter, written informed consent must be obtained when a right guaranteed by law or department rule is limited.

(1) The patient or legally authorized representative gives informed consent. Written informed consent is obtained from the:

(A) adult individual, if legally competent and deemed to be capable of understanding the required elements which constitute informed consent;

(B) guardian of the person of the adult individual if there has been a determination of mental incompetence by a court; or

(C) parent or managing conservator of a minor under the age of 16.

(2) Informed consent must be documented. Written informed consent is evidenced by a completed copy of the department's form for "Consent to Behavior Intervention," referenced as Exhibit A. Psychiatric hospitals and CSUs may use a different form provided that it includes all of the information included on the "Consent to Behavior Intervention" form.

(3) Informed consent may be withdrawn at any time. If informed consent is withdrawn, the program must be discontinued immediately, and the treatment team must meet within three working days to modify the individual's treatment plan. Withdrawal of consent may be in any form including, but not limited to, passive noncompliance, active resistance, or a verbal or other expression of unwillingness to continue participating in any aspect of the program.

(4) The limitation of the right or rights must be reviewed by the physician as appropriate but must occur at least on a monthly basis, unless otherwise specified.

(5) Informed consent must be renewed. Written informed consent must be reviewed and renewed every six months.

(c) Any limitation on rights is included as a part of the individual's comprehensive treatment plan. The treatment plan also includes a program that emphasizes positive approaches and uses positive behavioral interventions.

(d) It is prohibited for limitation on rights to be used:

(1) in retribution, as punishment, or as a means of controlling an individual by eliciting fear;

(2) for the convenience of staff or as a consequence of insufficient staff;

(3) as a substitute for a comprehensive treatment plan; or

(4) in the absence of positive behavioral interventions.

(e) Any limitation on rights will not:

(1) deprive an individual of a basic human need (e.g., a bed at night, food, personal clothing, etc.) or the essentials of a normal hospital environment; or

(2) alter the texture of a food item or use techniques that could result in failure to provide a nutritionally adequate diet. Foods used as edible reinforcers within a behavior intervention program are evaluated by the treatment team, including a qualified dietitian and physician, with consideration of the individual's nutritional status, needs, and preferences.

(f) Additional approval required. Written informed consent must be obtained for behavior intervention programs using highly restrictive interventions. Additionally, the use of any procedures or programs employing aversive techniques, such as, but not limited to, faradic stimulation, require the unanimous documented written approval of the medical director of the facility, the CEO, and the Ethics Committee.

§405.104. General Requirements

(a) Only a physician licensed to practice medicine in Texas may administer ECT and a physician may not delegate the act of administering the therapy. It is not to be inferred, however, that ECT should be held as a treatment of “last resort.” Full documentation of the factors considered in arriving at the decision to use ECT, the consent

process, the treatment procedures, and patient response to treatment shall be entered into the patient's permanent medical record.

 - (C) degenerative diseases of the central nervous system;
 - (D) glaucoma although it is recognized that intraocular pressure is not increased by ECT, and is, in fact, reduced during the seizure period, medications used adjunctively to the treatment may result in increased intraocular pressure. For patients with glaucoma, consideration should be given to pretreatment with physostigmine;
